

Purpose:

The purpose of the Fogarty Emerging Global Leader Award is to provide research support and protected time to a research scientist from a low- or middle-income country (LMIC) with a junior faculty position at an LMIC academic or research institution. This intensive, mentored research career development experience is expected to lead to an independently funded research career. This Funding Opportunity Announcement (FOA) invites applications from LMIC scientists from any health related discipline that propose career development activities and a research project that is relevant to the health priorities of their country.
