

**International Pediatric
Association Foundation, Inc.**

YOUR IPA FOUNDATION WORKING FOR YOU

The IPA Foundation is the sister charitable organization of the IPA, and with generous donations from IPA members and pediatricians, the IPA Foundation is able to support many of the IPA's activities and programs.

The IPA Foundation Board cooperates with the IPA Standing Committee, ensuring that your monies are spent wisely and effectively. To this end, all of our funding is distributed to and disbursed by IPA member countries.

Contributions from IPA members and pediatricians are critical to producing tangible, live-saving results. 1) Your monetary support enables pediatricians to initiate interventions in countries that are experiencing humanitarian crises and natural disasters, such as the Rohingya refugee crisis in Bangladesh and the earthquakes in Mexico. 2) Your donations fund workshops that prepare child health workers to respond to the needs of children. 3) Your charitable giving sponsors grants for pediatricians to conduct small research programs that assist children while expanding local evidence-based capacity.

The IPA Foundation also helps support the activities of our ten IPA working groups by providing activity-related workshops at Congresses and subsidizing strategic action group development throughout the year.

We ask that every member of the IPA and pediatrician provide what support you can by giving a donation to the IPA Foundation. Your continued annual financial assistance enhances and grows the IPA's work, which helps meet the needs of children everywhere.

DONATE today by visiting <http://ipaf-world.org/donate.html>, or mail a check payable to "IPA Foundation" to: 418 Webster Forest Drive, Saint Louis, MO 63119 USA.

Thank you!
