

The objective of 2nd Immunization and MDG Champions' Pre- ICP Congress Workshop is as follows:

- To update participants on the status of immunization program and vaccine introduction in low income countries
- To provide a forum for meaningful discourse and interaction of pediatricians with global leaders and partners engaged in vaccine and immunization program worldwide;
- To strengthen the voice of developing country pediatricians and pediatric societies in informing and influencing policy decisions concerning vaccines and immunizations;
- To empower and motivate participants to develop tailored strategies and specific plans of action for engaging their national pediatric societies in immunization and child health policy, advocacy and implementation at national and regional levels.
