

SIOP Childhood Cancer Early Diagnosis & Appropriate Referral (CEDAR) Project

INTRODUCTION

The International Society of Pediatric Oncology ([SIOP](#)) is glad to announce the launch of the “SIOP Childhood Cancer Early Diagnosis and Appropriate Referral ([CEDAR](#)) project”, in collaboration with the International Pediatric Association ([IPA](#)). The main objective of CEDAR is to improve the knowledge and understanding of general health care providers, including pediatricians, family practitioners, and community nurses, involved in the initial care, diagnostic workup, and referral of pediatric patients suspected of having cancer.

PRACTICAL ADVICE IN MONTHLY WEBINARS

By providing practical advice from oncology experts from around the world, we aim to improve the outcomes of children and adolescents with cancer in resource-limited settings where delayed diagnosis, misdiagnosis, and underdiagnosis significantly impact cancer-related morbidity and mortality. In the first phase of the CEDAR project, SIOP and IPA are organizing a series of monthly webinars (September 2022 to March 2023) to highlight the importance of early diagnosis, with a focus on the six [WHO](#) index cancers (acute lymphoblastic leukemia, Hodgkin lymphoma, Burkitt’s lymphoma, Wilms tumor, retinoblastoma, and low-grade glioma). There will also be a discussion session with an international expert panel in each of these webinars.

FREE WEBINARS OPEN TO EVERYONE

These webinars are free to attend and open to everyone. We are in the process of CME accreditation. The recordings of these meetings will be published on the [SIOP](#) website.

OPENING WEBINAR

Childhood Cancer Early Diagnosis & Appropriate Referral (SIOP Webinar Series)

Friday, September 9, 2022

Childhood Cancer Awareness Month

2 - 3 PM UTC

Outcomes of Childhood Cancers: Gaps and Disparities to be addressed

Registration Link: [Webinar](#)

Speakers

- Prof Kathy Pritchard-Jones, SIOP President
- Dr Liliana Vasquez, SLAOP President, SIOP Cont. President LATAM
- Dr André Ilbawi & Dr Roberta Ortiz, WHO GICC Team
- Dr Eddy Supriyadi, IPA Representative

Moderators

- Dr Muhammad Saghir Khan & Dr Claudia Sampor (both SIOP)
- Dr Mychelle Farmer (Co-Chair of IPA SAG on NCD)

SIOP

The International Society of Paediatric Oncology (SIOP) is the only global multidisciplinary society entirely devoted to pediatric and adolescent cancer. SIOP, as a non-state actor in official relations with WHO, is committed to contribute substantially to WHO Global Initiative for Childhood Cancer. We have over 2,600 members worldwide including doctors, nurses, other healthcare professionals, scientists, and researchers.

IPA

The International Pediatric Association (IPA) exists to create a world where all children, regardless of age, location, or family situation can live healthy lives. IPA advocates globally, nationally, and locally for high-quality, evidence-based, and child-centered pediatric care. We are a respected partner of WHO and UNICEF and provide global leadership on emerging child health issues through our work with leading global health players.
